DECLARATION OF ROSA WILKINS-LANGIE
SWEARING BEHIND REFERENCE
(37 CFR § 1.131)

Assistant Commissioner for Patents
Washington, DC 20231

Dear Sir:

I, Rosa Wilkins-Langie, hereby declare as follows:

1. I am a mother, a full-time teacher, and the inventor of the invention that disclosed and claimed in provisional patent application no. 60/475,871 and in corresponding non-provisional patent application no. 10/807,647. My maiden name is Wilkins. I am married to Louis Langie and am known as Rosa Langie or as Rosa Wilkins-Langie.

2. I am making this declaration under 37 CFR § 1.131 to establish the invention of the subject matter of my claims prior to the effective date of a particular applied reference, namely U.S. Patent Application Publication No. US 20040108179 (hereafter "the Scicluna application"). The Scicluna application was filed on December 9, 2002, and was published on June 10, 2004.

3. In my patent application, the Office Actions of May 2, 2007 and December 27, 2007 apply Scicluna against my claims under 35 USC § 102(b) which, I am informed, relates only to prior art consisting of printed publications that were published more than a year before the filing date of my own application. It appears that the designation of Scicluna as a 102(b) reference was an inadvertent error in that Scicluna is not available as prior art under Section 102(b) based on its publication date of June 10, 2004 (because that is not before the March 23, 2004 filing date of my non-provisional, much less the March 25, 2003 filing date of my provisional). On closer review, I am informed, Scicluna is only *conditionally* available as prior art under Section 102(e) based on its filing date of December 9, 2002, which is shortly before my provisional filing date of March 25, 2003.

4. As established herein, Scicluna is not available as prior art under Section 102(e), based on its filing date of December 9, 2002, because I invented the subject matter claimed in my patent application before December 9, 2002. I will hereinafter refer to December 9, 2002 as the “Effective Date” of the Scicluna application.

5. I have read Claims 1, 3, 6-10, 12, 13 and 15-17 that are pending in this application and have a technical understanding of how such claims apply to the disclosure of this application. As shown by the exhibits that I have attached hereto and described below, I invented the utility bag that is described and claimed in my patent application before the Effective Date of Scicluna.

6. Attached hereto as **Exhibit A** is a Confidentiality Agreement between me (“Rosa Langie”) and Borraez Studios, a design studio that I hired to help me reduce

my invention to practice by constructing prototypes according to my inventive concepts. The Confidentiality Agreement is dated August 2, 2002, which is about four months prior to the Effective Date of the Scicluna application.

7. Also attached hereto as **Exhibit B** is a quote from Borraez Studio dated "8/2/02". This quote is also about four months prior to the Effective Date of the Scicluna application and it documents my payment of one thousand dollars (\$1,000) to Borraez Studio for help in constructing prototypes of my utility bag (referenced therein as a "diaper bag").

8. Also attached hereto as **Exhibit C** are two-pages of sketches of my utility bag's construction and overall operation as described and claimed in my provisional and non-provisional applications. As shown therein, these sketches were faxed to me from my draftsman, Hollywood Design and Manufacturing, Inc., on "11/26/02" (see facsimile transmission info), which is about two weeks prior to the Effective Date of the Scicluna application. These sketches were prepared on the basis of the first prototype constructed by Borraez Studio pursuant to the 8/2/02 quote. Thus, these dated sketches confirm that the conception and reduction to practice of my claimed invention occurred at least as early as November 26, 2002, i.e. prior to the Effective Date of the Scicluna application.

9. This declaration factually establishes that I invented my claimed invention prior to the Effective Date of the Scicluna application since both conception and reduction to practice occurred prior to the Effective Date of the reference.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed

to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
